EDUCATION

Bachelor of Technology in Computer Science s Engineering

Bennett University, Greater Noida

Aug 2024 - Present

Technical Skills

Programming Languages:

C++ (Data Structure and algorithm)

Python

Java Script

React

Data Structures & Algorithms:

- Arrays, Strings, Linked Lists
- Stacks, Queues
- Trees, Graphs
- Recursion, Sorting, Searching
- Basic Dynamic Programming

Tools:

- Git and GitHub
 - MongoDB
-

CORE COMPUTER SCIENCE

- Object-Oriented Programming (OOP) principles
 - Time and Space Complexity Analysis
 - Database Management Systems
-

PROJECTS

Project 1: Sign Language Recognition System

Sign Language Recognition System | Python, OpenCV, Machine Learning

- Developed an AI-based system to recognize hand gestures for sign language communication.
- Implemented image preprocessing and feature extraction using OpenCV.
- Trained and evaluated machine learning models for gesture classification.
- Built a web interface for real-time sign recognition.
- Addressed challenges such as lighting variation and hand orientation.

Project 2: Sehat Connect - Healthcare AI Chatbot (SIH Project)

Sehat Connect - Healthcare AI Chatbot | Python, Llama LLM, NLP

- Developed an AI-powered healthcare chatbot as part of a Smart India Hackathon (SIH) project.
- Integrated an Llama-based large language model to provide health-related guidance and responses.
- Designed conversation flows to handle user health queries in a structured and user-friendly manner.
- Implemented prompt engineering techniques to improve response accuracy and relevance.
- Focused on data privacy and safe handling of health-related information.

Project 3: CERVIX Cancer Detection (RESEARCH PAPER) (ONGOING RESEARCH)

- Working on a machine learning-based system to detect and classify stages of cervical cancer.
- Curated and filtered an open-source medical dataset to improve data quality and class balance.
- Performed data preprocessing and feature selection for model training.
- Collaborating with faculty on model evaluation and research documentation.
